Dear Sir/Madam,

Hope this letter finds you well. I would like to take this opportunity to introduce myself as a professional in the software industry with over 4 years of experience in the development and research domain. I am graduating in January 2018 from the Chittagong Polytechnic Institute, pursuing an Associate's degree in Engineering in Computer Technology with an excellent academic record. Currently I am studying BSc in Computer Science and Engineering at the University of Creative Technology, Bangladesh (Expected to graduate in December 2022). I am looking for full-time permanent positions with an esteemed organization that allows me to employ my abilities to meet company vision and mission.

My curriculum comprised of courses like Data Structures & Analysis of Algorithms, Database System Design, Mobile Application Development, Internet Application Design and Development, Cyber Security, Human-Computer Interaction, Cloud Computing, Machine Learning, Blockchain, Computer Organizations, Programming Methodology, and design of User Interface has assisted me to gain profound knowledge in the field of Computer Science and Engineering. These are the fields of my interest as well.

Adapting to various work cultures, identifying bottlenecks, and prioritizing have been the striking feature of my working style. In addition to the above, I strongly believe in learning and sharing my knowledge with colleagues. Moreover, I stand to the point that an organization or team can grow with all players working together. I am keen on learning and adapting new technologies to sharpen my skills at troubleshooting and solving problems.

I am confident that my background and knowledge in the Computer Science and Engineering area along with my strong technical skills and work ethics will prove an important and immediate value to your organization.

I have enclosed my resume and would appreciate an opportunity to talk with you. Should you have any further concerns or questions, please feel free to contact me. I look forward to hearing from you soon.

Cordially,

Sohail
